

LEJ Classroom Program Request Form

This form is designed to expedite the process of program planning. We will contact you within 10 business days of receipt of your request.

Heron's Head Park Program: (For grades K-12 with a curriculum based on California State Science Standards.) A typical program includes an hour-long pre-trip slide show and sense of place activity at your site followed by a 3-4 hour field trip at Heron's Head Park including introduction, habitat restoration, 2-3 activity modules, lunch time for students, and an overview of the off-the-grid environmental education center, the EcoCenter. The field trip should occur preferably within a few weeks of a pre-trip program. A field trip can be followed by an optional hour-long post-trip program at your site. Please note: there are no afterschool programming available at this time.

For further information about this program please contact **Raynelle Rino** (raynelle.rino@lejyouth.org) or **Anthony Khalil** (anthony.khalil@lejyouth.org).

Candlestick Point SRA Native Plants Nursery and Community Garden: (For students in the 5th grade and up.) A typical program includes hands-on activities and lessons in native plant propagation and care, planting natives in Candlestick Point SRA, organic gardening, and composting. The program is an excellent complement to a Heron's Head Park Program. We can accommodate groups up to 25 in size. A program is usually 3-4 hours and includes time for students to have lunch.

For further information about this program please contact **Carlos Gonzalez** (carlos.gonzalez@lejyouth.org).

Fax: 415/282-6839 * Please bring attention to proper program.

Cost: FREE or Sliding Scale (\$0 - \$500). Your tax deductible donation is always welcome.

Today's Date: _____
